

PARTNERSHIP PRESENTATION

From the capital city of
a country in war to the
World Championships

THE YOUTH SPORTS CLUB OF BRIGANTINA

Brigantina Sport Club is located in Kyiv. More than 2,000 children are engaged in the club. Among these children are more than 20 internally displaced persons from the occupied territories. A lot of the athletes are in the youth national team of modern pentathlon (swimming, running, shooting, fencing, horse jumping). Brigantina is the best youth athletes of Ukraine in different category (category up to 9,11,13,15,17,19 years old), its athletes take the best places at national championships, successfully represent our country at international competitions, have the titles masters of sports, candidates in masters of sports and lead the TOP-3 of the Ukrainian rating in each age category.

FROM THE CAPITAL OF A COUNTRY IN WAR TO THE TOP OF THE WORLD

The main goal for the club is to take medals in forthcoming European and World Championships, and it has great potential to be able to represent Ukraine during these difficult times.

//

We have a very good relationship between our team members as we have trained together for so many years and spent almost the whole day together. It just feels like as family.

But after February 24, everything changed. We became even more supportive and began to appreciate more just the ordinary days that we now spend together. It was a normal morning, we planned to have a morning workout, but instead of going to the pool, we woke up to our parents saying, "The war started."

This day will be remembered by all Ukrainians for the rest of their lives. On this terrible morning, do you just think about whether you will be alive in the evening? All the plans we made were broken.

It's the moment when you don't know when you'll see your friends again. As a result, we had to leave Kyiv, our hometown.

In June 2022, we returned home and started preparing for the European and World Championships in our hometown, despite all the circumstances.

VIACHESLAVA ZAGORIIA

DIRECTOR OF YOUTH SPORT CLUB BRIGANTINA

■ All fencing factories in Ukraine are located in the occupied territories and there is no way for the club to buy equipment, because fencing equipment is simply not available in stores.

YOU CAN HELP BY PROVIDING EQUIPMENT

■ To continue practising and competing, the club urgently needs the following equipment:

- Fencing scoring machine
- Fencing spool
- Fencing blade, weapons (épée)
- Fencing practice targets

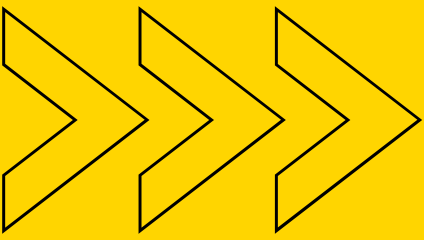

THE TEAM

The club has seven young athletes in the Ukrainian national team of Modern Pentathlon. Their names are Oleksandr Melnyk, Oleksandr Chernyshev, Oleksandr Klymenko, Sofia Urbanovich, Anna Dudka, Anastasiia Melnyk and Anna Babich. They are preparing for open modern pentathlon competitions in Poland, the European Championship in Lithuania and the World Championship in Egypt.

THE COACHES

The coaches (Anna Derkach, Ruslan Moseykin) are experienced athletes who are in the national team of Ukraine in fencing and modern pentathlon.

A week ago, the fencing coach Oleksandr Panin was drafted into the army, in the eastern region to the front zone, we hope that he will return to the club as soon as possible and continue practicing with us. This is the reality of war...

THE NEEDS
