

Slave

A fantastic card game for little schoolchildren, plunging into the mysteries of Ukrainian mythology, designed as part of the enchanting project "Magic World UA".

Temno

The game requires creativity, insight and good timing. This is a great test for vocabulary resources. With over 300 categories, everyone will find something to excel in. Suitable for a large number of players.

Double

A fabulous card game for the whole family! The adults have a blast and the children boost their concentration and speed. Let's play!

Uno

A world of laughter, challenges and color awaits you with Uno, the favorite card game of families around the world. Easy to learn but hard to master, Uno provides hours of fun for all ages

IQ bum

An independent game where children must think to place 3D pieces on a 2D grid. The game encourages concentration and thinking.
Hours of play: 120 challenges from easy to difficult.

Qwixx

With Qwixx, it's impossible to get bored: in turn, each player rolls the dice and everyone can use the result to check off a number in one of their rows.

Tangram

Taka Maka has prepared a thoughtful puzzle for children, which will develop their spatial imagination, logic and, of course, fine motor skills. The puzzle has a convenient frame to assemble and is made up of various shaped pieces that can be used to complete the shapes in the task booklet. The reverse side (orange) of the tiles is used for the tangram.

Tic Tac

The puzzle features a clock face with a hand and the seasons on the reverse.

Speedy Beedy

In this colorful game, each player plays a bee responsible for gathering small flowers. Inspired by the natural cycles of life, this game is perfectly suited to little hands, encouraging speed and observation.

Mushrooms

There are so few mushrooms in this immense forest, the most important thing is not to cross the path of a fly agaric! The game offers several difficulty levels so the whole family can have fun and participate enthusiastically.

Kotolapka

The board game "Kotolapka" is the champion of brain training! It boosts concentration, sharpens the sense of observation, and improves reflexes and the speed of thinking!
