“UAmFoot” PROGRAM

v5 - 20 September 2024

UKRAINIAN AMPUTEES REHABILITATION THROUGH AMPUTEE FOOTBALL

A GLOBAL PROGRAM TO...

- Create training camps
- Create coaching camps
- Create clubs and teams in all Ukraine
- Help to launch a Ukrainian Amputee Football League

THE GENESIS OF **THE PROJECT**

- Today, due to the full-scale invasion, there are more than 50,000 amputees in Ukraine, the vast majority of them veteran soldiers.
- Football is the most popular sport in Ukraine, specially among the population mostly affected by amputations.
- There is a need for long term support programs once the victims have left their initial rehabilitation centers.
- Amputation victims often experience a period of deep psychological suffering after the physical rehabilitation phase (prosthetics).

THE 3-PILLAR REHABILITATION JOURNEY

SPORT AS A CATALYST TO RECOVERY

1.

FROM ABSOLUTE EMERGENCY TO SURGERY

Victims are taken care of on the spot, stabilised, and receive medical treatments

- EMERGENCY MEDICS
- STABILISATION UNITS
- HOSPITALS

WEEKS

2.

FROM HEALING TO REHABILITATION

Victims receive psychological support and are equipped with prosthetics

- REHABILITATION CENTERS
- "UNBROKEN"
- "SUPERHUMANS"

MONTHS

3.

REINTEGRATION INTO SOCIETY

Victims go back home. The challenge is to avoid depression and build new projects

- FAMILY SUPPORT
- WORK
- SOCIAL ACTIVITIES

> SPORT

ALL LIFE

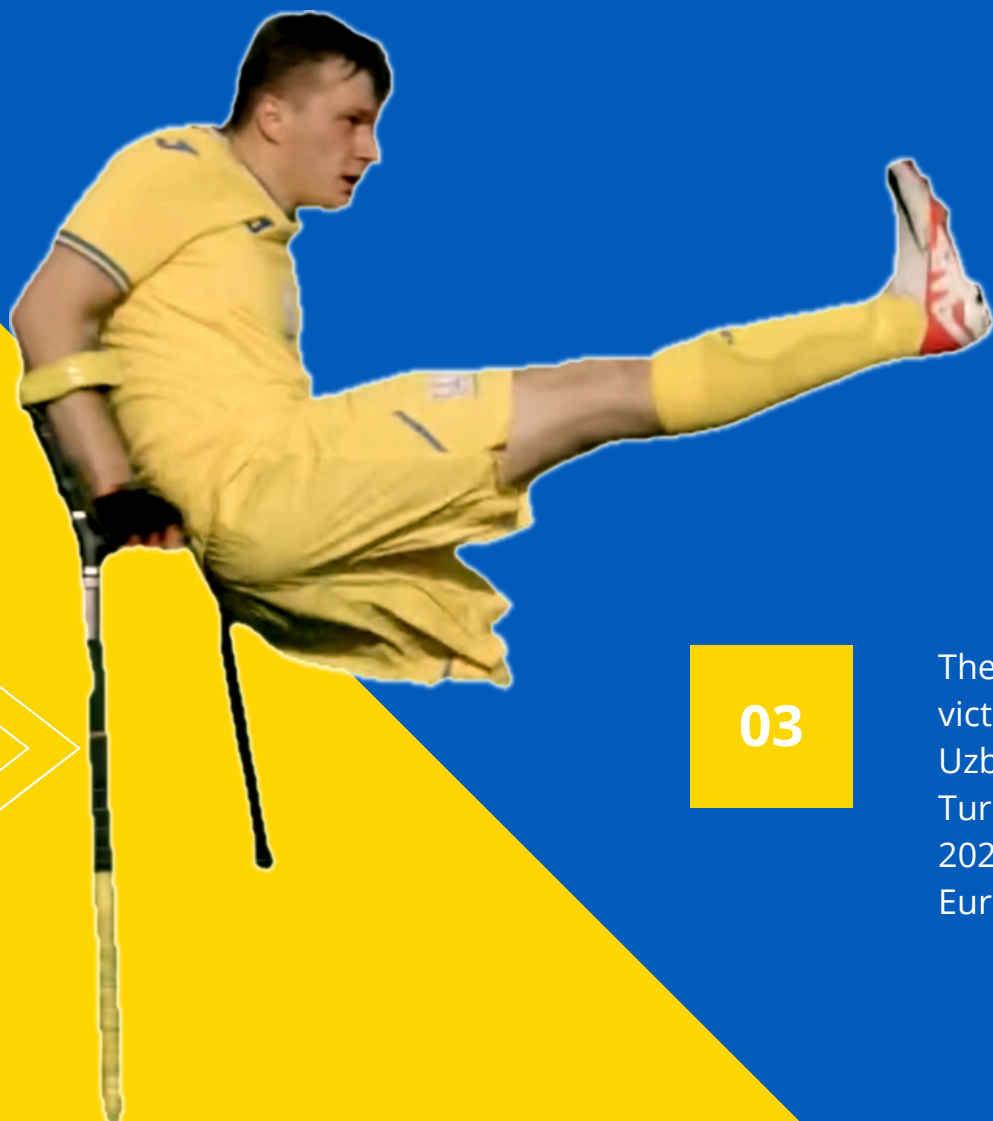

AMPUTEE FOOTBALL CAN PLAY A MAJOR ROLE IN PHYSICAL AND PSYCHOLOGICAL REHABILITATION

Rehabilitation through sport is recognized as one of the most effective, both from a psychological and physical point of view.

Football is the most popular sport in Ukraine, especially among the young male population, main victims of war trauma.

Our objective is to support the global rehabilitation of amputees in Ukraine by financing the creation of amputee football clubs

AMPUTEE FOOTBALL IN BRIEF

01

Amputee football is played 7v7 on a 60x40 meter pitch, where outfield players participate on elbow crutches and goalkeepers are single-arm deficient. It is one of the most dynamic, visual and engaging disability sports on the planet!

02

European Amputee Football Federation estimates that there are 1300 active amputee football players in Europe, including 150 juniors under 16 years old, playing in over 80 structured amputee football clubs.

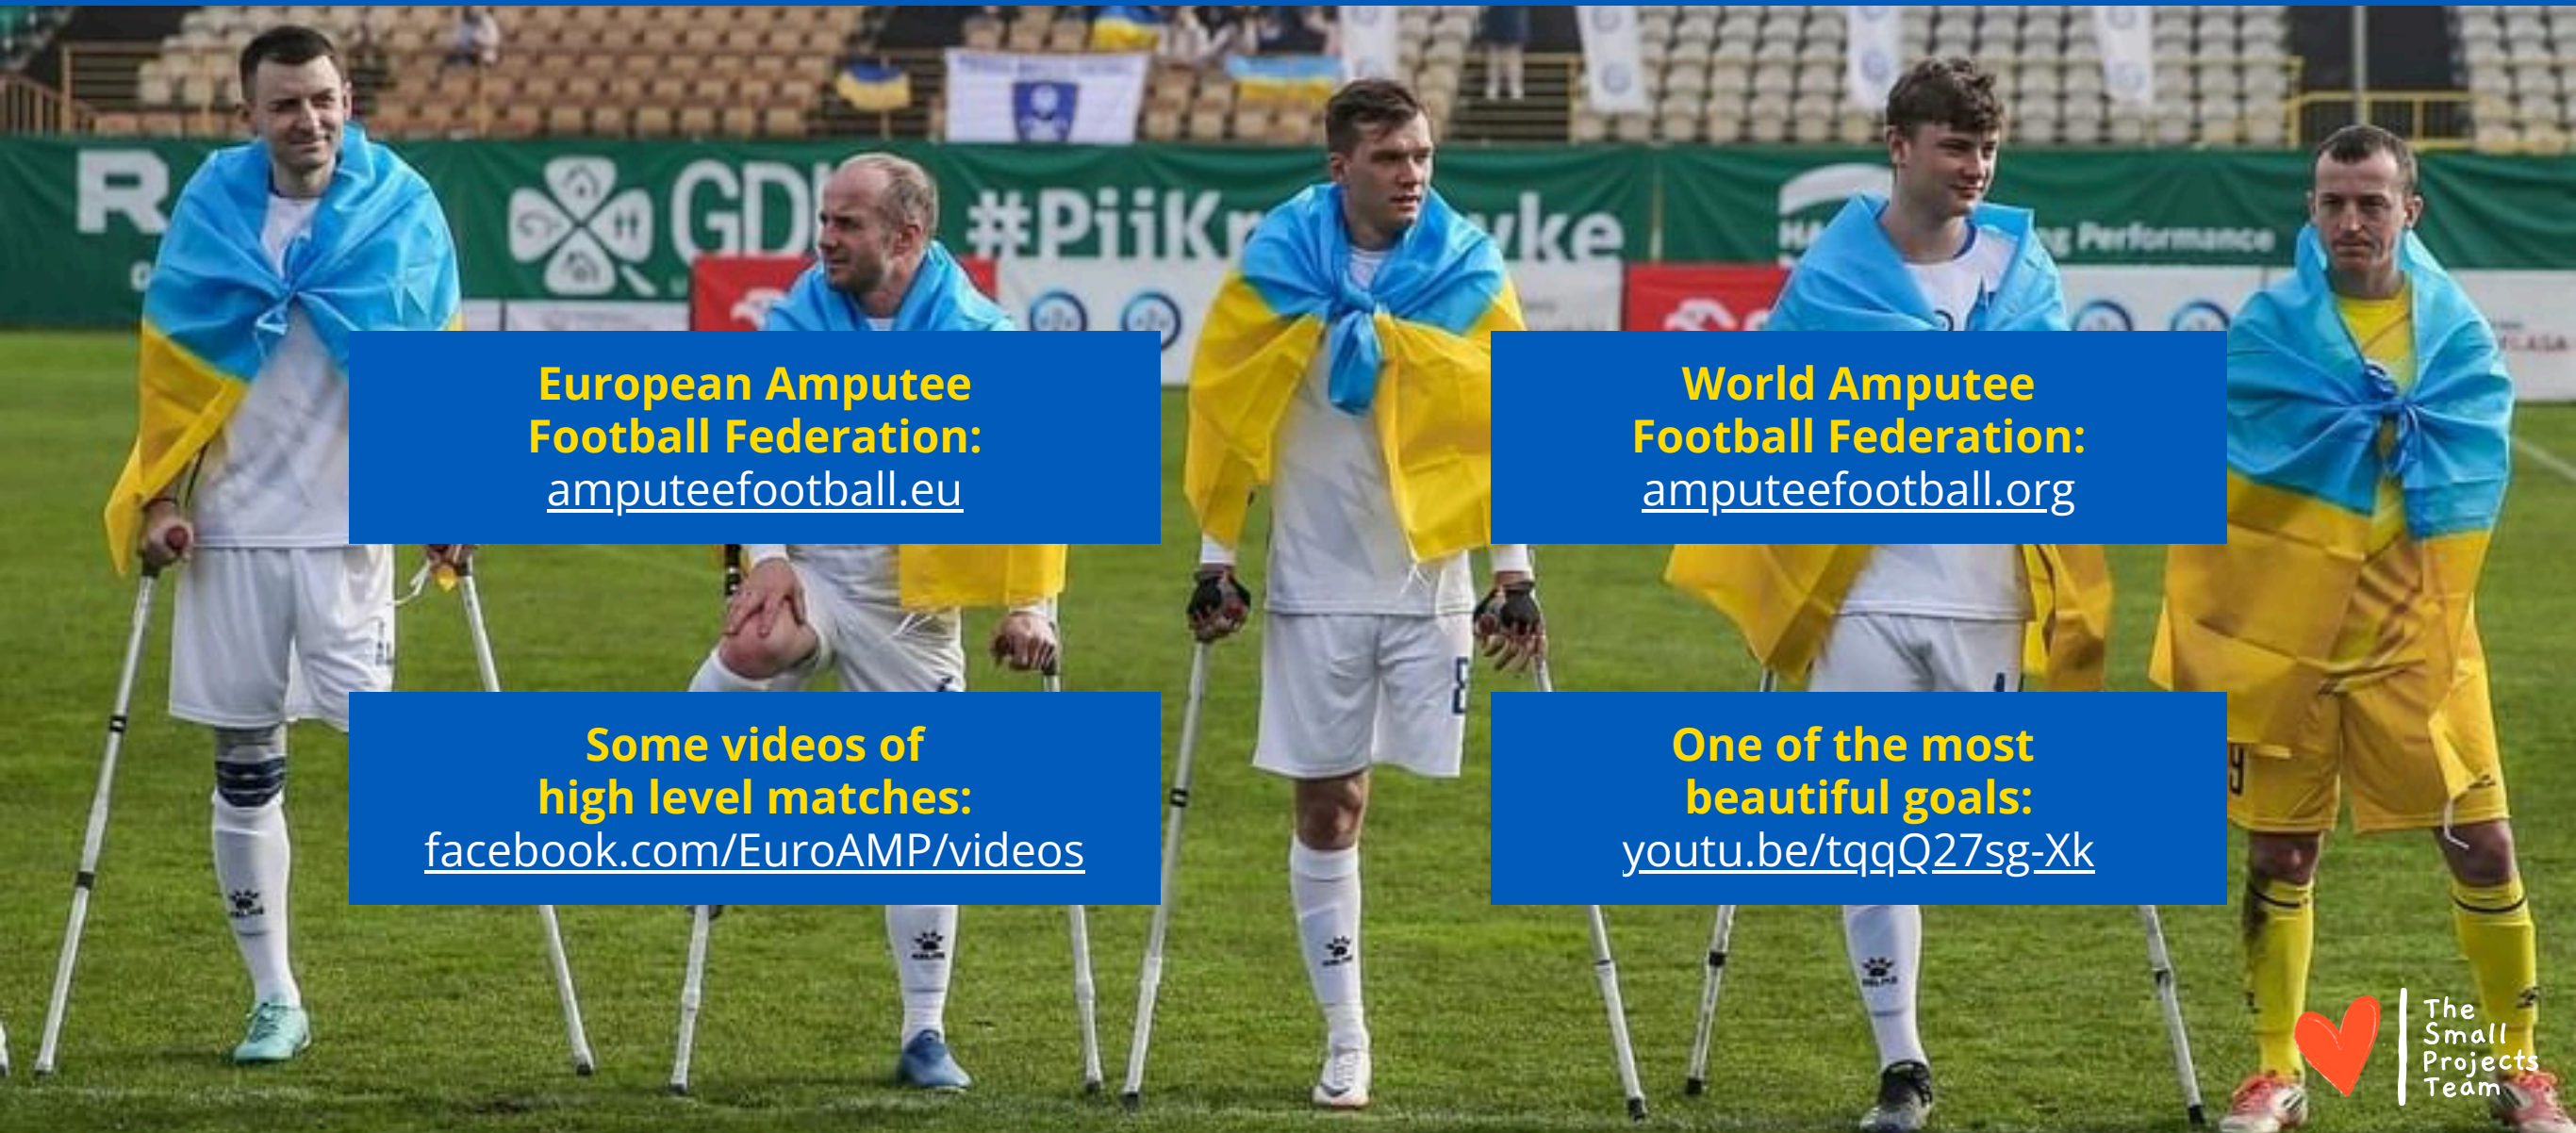

03

The last World Cup, held in 2022, saw the victory of Turkey, beating Angola, while the Uzbek team defeated Haiti for the 3rd place. Turkey also won the last European Cup in 2021, in front of Spain and Poland. The next European Cup will be in France, in June 2024

TODAY

- Today there are only three structured amputee football teams in Ukraine, the first one in Lviv (Pokrova) and another one led by Shakhtar Donetsk and the third one run by the Dnipro Cherkasy club. Several other teams start to be created.

TOMORROW

- - Help the creation of a Ukrainian amputee football league from 2025, with at least 5 major teams across Ukraine.
 - Create a program to train amputee football certified coaches to develop the sport in all Oblasts.
 - Create training centers throughout the country, welcoming adults and children.
 - Help Ukraine to become a recognized worldwide pole of competence for amputee football.
 - **And... win the World Cup 2026!**
